Progress Report:

As of 27/09/24, We had a meeting earlier about our plans for the upcoming group project in Theology101. For now, we had planned and distributed the taskings regarding the script, roles, and the draft for our biblio-drama. We have agreed that we will use the bible story "The good samaritan" for our act. For the roleplay, we distributed the taskings and finalized the characters in the story where the majority of our group will take part in the roleplaying. As for the creative aspect of our Bibliodrama we had planned to start the draft of the script as soon as possible for our time to be flexible for other matters. While the props and costumes will come later as the main idea for the script is to be completed. For the technical aspect of our Bibliodrama some of our members will provide the necessities for videography and editing. In summary, our group's progress is good so far as we have already a plan regarding the Bibliodrama as the taskings are done for the characters and the draft for the script is already in progress. We Hope that we can finish this script as soon as possible as it will give out ideas regarding the acting, props, costumes, and the flow of our Bibliodrama.
